O. H. Carpenter drove in from Kenilworth last Saturday. His many friends are glad to see him out again after his recent severe illness.

Miss Myrtle Hockett returned this week to Riverside, where her brother, C. C. Hockett, is quite sick. She had been visiting friends in Phoenix.

W. H. Stilwell, Esq., a prominent candidate for U. S. Attorney, visited Florence last Saturday on legal business. He expressed delight with the appearance of our valley.

Mrs. F. M. Doan received the sad news this week of the death of her mother, Mrs. Frances Murray, which occurred at Bowling Green, Mo., last Wednesday. The bereaved lady and her family have the sympathy of the entire community. It was only last week that the Tribune recorded the death of Mr. Doan's mother, at Newton, Kansas.

Smiles Irradiate the Countenance

When those atrocious bodily troubles, chills and fever, dyspepsia, kidney or rheumatic disorders, yield, as they invariably do, to the benign action of Hostetter's Stomach Bitters, a remedy of comprehensive use, pure in composition, unobjectionable to a delicate palate, and thorough in effects. Sick headache, loss of appetite, flesh and sleep, nausea, heartburn, are among the physical annoyances obviated by the Bitters. They are in the nature of signals of distress displayed by a disordered stomach, liver and bowels, and disappear with the cause that produced them. But these signals should be heeded at once. Then the rosy glow of health and vigor will speedily disappear, and vigor and comfort restore a cheerful aspect to the face. That faithful index to the condition of the system never fails to wear a look of sunshine when the Bitters is used to dispel the cloud.

Mr. C. D. Henry, of Florence, informs the Tribune of some valuable claims recently located by him and others about twenty-five miles east of Florence and three miles west of the Ripsey mine. On the principal claim, the Bonanza, Mr. Henry says the cropings are 400 feet wide, and at a conservative estimate there are 30,000 tons of ore above ground. Mr. Henry, who has credentials as an assayer and metallurgist, has made some sixty tests of the ore, which he says goes from 25 to 35 per cent in gold and 18 to 20 per cent in lead. If the ore maintains this value, and there is not an overestimate in the number of tons, there are more than a million dollars in sight in the cropings alone. But there are some five or six other claims equally as good. Mr. Henry is certainly to be congratulated on his valuable discovery.

Prof. Ollie Charlton's musical reception last Monday evening at the Presbyterian church was quite a success, and greatly enjoyed by those who were present. Pupils will be received into the adult evening class this, Saturday, evening and also Monday evening only. On Monday afternoon Prof. Charlton, at the request of some of our citizens, will organize a children's afternoon class, from 4 to 5 p. m. The tuition fee will be placed so low that every family can take advantage of this rare opportunity of having the children instructed in music by a competent instructor, and we hope every parent will avail themselves of this opportunity. The terms will be made known at Sunday school to-morrow morning. Those wishing to avail themselves of taking a course of lessons, on the piano or organ, during Prof. Charlton's stay with us can do so. The course used will be the Conservatory rapid method.

their mines, the Turling Point and Valley, one and one-half miles from the Jack Rabbit, and adjoining Jim Sam's "Chinaman" mine, for \$5000. Work will be prosecuted on these claims, in charge of Jerry Snyder, superintendent, in an active manner.

T. J. Marks, the popular agent of the Southern Pacific, has been transferred to Pantano. Mrs. Marks has gone to Wilcox to reside with his mother, joining him some time in June. This transfer caused some commotion among the people and a lively but decorous appeal was made to Supt. Randolph, in petition form, to have his order rescinded; but it was of no avail, as promotion in line of duty was the only motive.

Joe Ulloa, an old-time prospector, has been purchasing considerable property in Casa Grande, having acquired all of Mrs. Williams' houses, and improved them by additions and renovations. He is also engaged in the butcher and restaurant business, in connection with a Tucson party and Mr. Angelo, of Florence. Joe will be in comfortable circumstances soon, and he allowed to take life easy, provided he has no bad luck.

The Golden West camp has been partially abandoned, for reasons best known to the company. The buildings and necessaries have been transferred to a new camp near the Jack Rabbit and re-erected under the supervision of Mr. Jerry Snyder, superintendent, who will have charge of the work, upon claims purchased from Dan McLean and C. D. Meyers. Mr. Snyder is at present engaged in talking out a few carloads of ore to be forwarded for testing and demonstration before the character of the plant is decided upon.

The new copper camp, adjoining the Silver Reef properties, acquired by the Peck interests, of Louis, are being rapidly pushed to the point of demonstration, under the supervision of J. H. Canavan. The mines are bonded from Stiles, Mayhew and Ulloa, with Mr. Schetter as the fourth party, for \$50,000, on which about \$3000 has been paid, the remainder payable in September. Aside from running three drifts themselves, they have let a contract to John Moran, Billy Stiles and others to sink a perpendicular 57-foot shaft to the 100-foot level, at a cost, so it is rumored, of \$14 per foot. Jack Shulze has the contract to haul the ore to the smelter, which was hauled down by him from Mineral Creek, and temporarily erected at the Reef mill to take advantage of the water and machinery. After a run of 1000 tons or more, a permanent location for the smelter will be made at the mine. The boarding houses are managed by Mrs. Harry Argall and her sister Miss Nellie Weaver, and the firm of Gin Long & Co. The opening of this camp is felt here appreciably. The Pecks are in earnest, have capital at their command and promptly meet every square obligation. Everyone hopes for their success. Should this camp turn out as is anticipated, it means much for Pinal county, and copper experts make wonderful predictions and calculations as to formation, ore in sight, etc.
